Hon. Mary L. Sharpe
Chief Judge - US District Court
Dear Sir

I implore you to order Patricia Alfieri into a treatment program for her long standing alcohol addiction and also treatment for her Anti-Social Behaviors (this pattern of lies and stealing is escalating). For the sake of everyone and especially her 2 children (April - 19 & Nathan 18) please sentence Pat to the maximum amount. Her children are suffering emotionally & financially from all she has done to them over the years.

Example - Nathan unable to register for Spring Semester at SUNY due to insufficient funds - Pat had stolen \$3,000.00 from his student account - then wrote 2 "phony" checks to try & cover this up. We have paid this for him.

April received a letter from National Grid stating heat will be turned off 3/17/14 due to a \$6,800 bill in her name dating back to 2010. We are trying to solve this. Both are on the Deans list April - SIENA & Nathan - SUNY. They need to be free of her ^(Pat) & her severe problems for at least six (6) years to allow April to finish SIENA & Med School & Nathan to finish

SUNY and Law School. They have the support of us (Grandparents & extended family)

Attached is a list of problems Pat has created over the years. They include Federal, State, County & local - Cumberland crimes going as far back as 1985.

Thank you,
Barbara Foley
